**Course Number: 100592**

**Duration: 5 days**

## **Overview**

### **Course Description**

This advanced 5-day training course teaches the design principles for creating a Citrix Virtual Apps and Desktops virtualization solution.

This course covers the Citrix Consulting approach to design and covers the key design decisions through lectures, lab exercises and interactive discussions. You will also learn about additional considerations and advanced configurations for multi-location solutions and disaster recovery planning. This training will help you prepare for the Citrix Certified Expert in Virtualization (CCE-V) exam

### **Skills Gained**

- Identify risks and areas for improvement in a Citrix Virtual Apps and Desktops environment by assessing relevant information in an existing deployment

- Determine core Citrix Virtual Apps and Desktops design decisions and align them to business requirements to achieve a practical solution
- Design a Citrix Virtual Apps and Desktops disaster recovery plan and understand different disaster recovery considerations

## **Who Can Benefit**

For IT Professionals and Consultants who wants to Learn design principles for creating a Citrix Virtual Apps and Desktops virtualization solution.

## **Prerequisites**

This course requires extensive experience with Citrix Virtual Apps and Desktops 7 as well as experience with Citrix Gateway and supporting infrastructure.
