Mirantis Cloud Native Platform Bootcamp

Course Number: CN253

Duration: 4 days

Course Description

In this intense bootcamp, you'll encounter containers for the first time, learn to orchestrate them into scalable, highly available applications orchestrated by Docker Swarm, and finally discover how to enhance the security of your entire software supply chain and production environments using Mirantis Kubernetes Engine and Mirantis Secure Registry. This bundle is ideal for students who are just starting out with containerization and want to leverage the full power of Swarm and the Mirantis orchestration platform as soon as possible.

Who Can Benefit

- Role: System Operators & Administrators
- Motivations: quickly learn the foundations of containerization and orchestration with Swarm, and become familiar with all the features of Mirantis Kubernetes Engine and Mirantis Secure Registry.

Prerequisites

- Familiarity with the bash shell
- Filesystem navigation and manipulation
- Command line text editors like vim or nano
- Common tooling like curl, wget and ping

Lab Requirements

- Attendees should have the latest Chrome or Firefox installed, and a free account at strigo.io.

Course Details

Course Outline

- This course combines all topics of CN100, CN110, CN212 and CN213

Related Certifications

Authorized training from Ascendient is created and maintained by the vendor who also creates the certification exams. While it may not be a requirement of certification to attend a vendor-authorized training class, doing so will put you in the best position to successfully complete the related exams. Start training and begin working towards one of the following certifications today.

Docker Certification
Docker Certified Associate (DCA)
