Microsoft - Secure Storage for Azure Files and Azure Blob Storage

Course Number: AZ-1003

Duration: 1 days

Course Description

In this class, you practice storing business data securely by using Azure Blob Storage and Azure Files. The skills validated include creating storage accounts, storage containers, and file shares. Also, configuring encryption and networking to improve the security posture.

Prerequisites

- Experience using the Azure portal to create resources.
- Basic knowledge of unstructured data like blobs and files.
- Basic knowledge of security concepts like identities, permissions, and encryption.
- Basic knowledge of networking concepts like virtual networks and subnetting.

Course Details

Course Outline

- Create an Azure Storage Account
- Configure Azure Blob Storage
- Configure Azure Storage security
- Secure and isolate access to Azure resources by using network security groups and service endpoints
- Guided Project - Azure Files and Azure Blobs
