Entry Certificate in Business Analysis (ECBA) Certification Prep

Course Number: ECBA

Duration: 1 days

Course Description

This ECBA Certification Prep course summarizes the BABOK® into a digestible format so that the key information can be learned without diving into the detailed levels that are needed for subsequent certifications. The course includes practice questions that reinforce the information in the various Knowledge Areas plus you are provided with a practice test with explanations and BABOK® references. You also learn test-taking strategies to help you eliminate wrong answers and analyze questions to maximize your chances of passing the first. This ECBA™ Certification Training Course is intended to comply with the International Standards Organization (ISO) 17204 standard for certifying the competence of personnel. You can count on a fast-paced, challenging, and ultimately productive learning environment as our experts download their knowledge and secrets for IIBA certification success and help you attain yours. The ECBA (Entry Certificate in Business Analysis)™ does not require any experience to apply for the exam but does require 21 hours of professional training that is approved/endorsed by the IIBA. This course accounts for 7 of those hours but can be bundled with our other course offerings to get all required training. After completing the application and scheduling your exam, the 1-hour exam of 50 questions is taken at a home or work PC with working webcam and microphone. To be able to answer the questions, you need a certain level of knowledge of the Business Analysis Body of Knowledge® v 3.0 (BABOK®).

Skills Gained

- Analyze and remember the most important elements of the Business Analysis Body of Knowledge® needed to pass the ECBA Entry Level Certification Exam
- Understand the process from application to test taking
