Course Number: ARS412

Duration: 1 days

Overview

Course Description

Skills Gained

- This course will prepare you to:
 - Identify and configure the appropriate template types and event rules to structure sourcing events effectively.
 - Utilize the content library to create, manage, and reuse sourcing event content efficiently.
 - Configure global event settings, including currency rules, multi- currency bidding, exchange rates, and language translation.
 - Apply conditional content to sourcing events by creating and managing basic and advanced conditions.
 - Enable alternative bidding to allow suppliers to submit multiple bid options with different pricing structures.
 - Configure pricing strategies, including total cost, bid transformation, price breakdown, and supplier-added items.
 - Leverage Microsoft Excel to import, export, and manage event data, including custom offline response sheets and large-capacity events.

-Implement envelope bidding techniques to structure bid submissions and securely manage participant responses.

Who Can Benefit

- This course is designed for SAP Ariba Strategic Sourcing users who want to leverage advanced functionalities to optimize their sourcing events.
