**Course Number: U5I2102G**

**Duration: 2 days**

## Overview

### Course Description

The 2-day Advanced Analysis Course has been designed for users to gain an in-depth understanding of the advanced analytical capabilities of the software.

- This course is also applicable for users of i2 Analyst's Notebook 9.0 and above.

### Skills Gained

- Complete knowledge assessment of topics covered on Core Essentials and Importing Course
- Utilise the advanced analysis functions to search and interrogate the chart to identify key entities to support analysis
- Identify any intelligence gaps and discrepancies in temporal data using Activity View
- Utilise the Social Network Analysis functions to identify key Entities within a network to support Subject and Network Analysis

- Design new and apply standard Conditional Formatting Specifications to identify patterns within the data and display potential discrepancies
- Demonstrate how to add Filters, Histograms and Heat Matrix to display data that can be added to reports and presentations
- Complete final exercise

## Who Can Benefit

This course is suitable for anyone wishing to learn how to use the advanced functions of the software.

## Prerequisites

Students must have attended the i2 Analyst's Notebook 3-day Core Essentials & Importing Course or equivalent. Students must be reasonably proficient with Microsoft Windows, Excel and Word.

## Lab Environment

- Based on i2 Analyst's Notebook 9.4
